TABLE OF CONTENTS—VOLUME 53

Acevedo-Rodríguez, Pedro and Genise Vieira Somner. Two new species of *Serjania* (Sapindaceae) from southeastern Brazil. 477

Almeda, Frank. Three new Mesoamerican species of *Topobea* (Melastomataceae). 157

Anderson, Christiane. Novelties in *Mascagnia* (Malpighiaceae). 405

Areces-Mallea, Alberto E. A new opuntioid cactus from the Cayman Islands, B.W.I., with a discussion and key to the genus *Consolea* Lemaire. 96

Ballard, Harvey E., Jr., Dale A. Casamatta Jr., Melissa M. Hall,Ross A. McCauley, Maria Claudia Segovia-Salcedo, and Robert G. Verb. Phenetic analysis shows conspecificity between Hispaniolan *Viola domingensis* Urban and North American *Viola macloskeyi* sensu lato (Violaceae). 122

Bárcenas, Rolando T. *See* Hernández, Héctor M.

Berg, C. C. and S. V. Dahlberg. A revision of *Celtis* subg. *Mertensia* (Ulmaceae). 66

Bezerra de Souza, Elnatan and Margareth Ferreira de Sales. *Mitracarpus longicalyx* (Rubiaceae, Spermacoceae), a new species from northeastern Brazil. 482

Brownsey, Patrick J. New Zealand's pteridophyte flora - plants of ancient lineage but recent arrival? 284

Buck, William R. An annotated list of the publications of Rupert C. Barneby. 41

Bussard, Lisa. *See* Essig, Frederick B.

Cabrera R., Leticia. Six new species of *Acourtia* (Asteraceae) and a historical account of *Acourtia mexicana.* 416

Carnevali Fernández-Concha, Germán. José Luis Tapia Muñoz and Mauro Gómez-Juárez A synopsis of the *Maxillaria rufescens* complex in Mexico, Central America, and the Greater Antilles. 454

Casamatta, Dale A., Jr. *See* Ballard, Harvey E., Jr.

Collinson, Margaret E. Cainozoic ferns and their distribution. 173

Crase, Douglas. *Ruperti Imagines*: a portrait of Rupert Barneby. 1

Crawford, Daniel J. *See* Kimball, Rebecca T.

Dahlberg ,S. V. *See* Berg, C. C.

Dassler, Cynthia L. and Donald R. Farrar. Significance of gametophyte form in long-distance colonization by tropical, epiphytic ferns. 352

Dávila, Patricia A. *See* Vargas, Ofelia

de los Angeles Guadarrama Olivera, María. *See* Fryxéll, Paul

Delprete, Piero G. Notes on some South American species of *Psychotria* subgenus *Heteropsychotria* (Rubiaceae), with observations on rubiaceous taxonomic characters. 396

Essig, Frederick B., Lisa Bussard, and Nicole Hernandez. A systematic histological study of palm fruits. IV. Subtribe *Oncospermatinae* (Arecaceae). 466

Farrar, Donald R. *See* Dassler, Cynthia L.

Ferreira de Sales, Margareth *See* Bezerra de Souza, Elnatan

Frodin, David G. *See* Wen, Jun

Fryxell, Paul A. and María de los Angeles Guadarrama Olivera New Mexican species of *Byttneria* (Sterculiaceae), *Bakeridesia* (Malvaceae), and *Triumfetta* (Tiliaceae). 59

Gómez-Hinostrosa, Carlos *See* Hernández, Héctor M.

Gómez-Juárez, Mauro *See* Carnevali Fernández-Concha, Germán.

Hall, Melissa M. *See* Ballard, Harvey E., Jr.

Harmon, P. J.See Kimball, Rebecca T.

Hernández, Héctor M., Carlos Gómez-Hinostrosa, and Rolando T. Bárcenas. Studies on Mexican Cactaceae. II. *Opuntia megarrhiza,* a poorly known endemic from San Luis Potosí, Mexico. 528

Hernandez, Nicole. *See* Essig, Frederick B.

Holmgren, Noel H. and Sylvia Kelso. *Primula cusickiana* (Primulaceae) and its varieties. 154
Jaimes, Ivan. *See* Piesschaert, Frederic
Jansen, Steven. *See* Piesschaert, Frederic
Kelso, Sylvia *See* Holmgren, Noel H.
Kimball, Rebecca T., Daniel J. Crawford, Jessica R. Page, and P. J. Harmon. Inter-simple sequence repeat (ISSR) diversity within *Monarda fistulosa* var. *brevis* (Lamiaceae) and divergence between var. *brevis* and var. *fistulosa* in West Virginia. 511
Landrum, Leslie R. Two new species of *Campomanesia* (Myrtaceae) from Espírito Santo and Bahia, Brazil. 534
Luteyn, James L. Two new species and two new combinations in Mesoamerican Ericaceae. 437
Malla. Kuber J. *See* Yoo, Ki-oug
Martínez, Mahinda. *See* Vargas, Ofelia
McCauley, Ross A. *See* Ballard, Harvey E., Jr.
Mickel, John T. A new species in the *Elaphoglossum petiolatum* complex (Elaphoglossaceae) from Mexico. 487
Moran, Robbin. Introduction: Papers from the Pteridophyte Biogeography Symposium, International Botanical Congress. 171
——— and Alan R. Smith. Phytogeographic relationships between neotropical and African-Madagascan pteridophytes. 304
———. Estimates of the number of mounted pteridophyte specimens in six major herbaria in the United States. 435
Muñoz, José Luis Tapia. *See* Carnevali Fernández-Concha, Germán.
Nee, Michael. A new species of Banara (Flacourtiaceae) from Bolivia. 472
Nesom, Guy L., Harold Robinson, and Arturo Granda Paucar. A new species of *Chiliotrichiopsis* (Asteraceae: Astereae) from Peru. 430
Neyland, Ray. A phylogeny inferred from large ribosomal subunit (26S) rDNA sequences suggests that *Cuscuta* is a derived member of Convolvulaceae. 108
Page, Jessica R.See Kimball, Rebecca T.
Parris, Barbara S. Circum-Antarctic continental distribution patterns in pteridophyte species. 270
Paucar, Arturo Granda. *See* Nesom, Guy L.
Piesschaert, Frederic, Steven Jansen, Ivan Jaimes, Elmar Robbrecht, and Erik Smets. Morphology, anatomy, and taxonomic position of *Pagameopsis* (Rubiaceae-Rubioideae). 490
Pinheiro, Claudio Urbano B. Germination strategies of palms: the case of *Schippia concolor* Burret in Belize. 519
Price, Robert A. *See* Sweeney, Patrick
Robbrecht, Elmar. *See* Piesschaert, Frederic
Robinson, Harold. *See* Nesom, Guy L.
———. *See* Wagner, Warren L.
Ronse, Anne. A revision of Otacanthus Lindl. (Scrophulariaceae). 137
Segovia-Salcedo, Maria Claudia, *See* Ballard, Harvey E., Jr.
Skog, Judith E. Biogeography of Mesozoic leptosporangiate ferns related to extant ferns. 236
Smets, Erik. *See* Piesschaert, Frederic
Smith, Alan R. *See* Moran, Robbin C.
Soejima, Akiko, Tetsukazu Yahara, and Kuniaki Watanabe Thirteen new species and two new combinations of *Stevia* (Asteraceae: Eupatorieae) from Mexico. 377
Sweeney, Patrick W. and Robert A Price A multivariate morphological analysis of the *Cardamine concatenata* alliance (Brassicaceae). 82

Vargas, Ofelia, Mahinda Martínez, and Patricia Dávila A. Two new species of *Physalis* (Solanaceae) endemic to Jalisco, Mexico. 505
Vieira Somner, Genise. *See* Acevedo-rodríguez, Pedro
Verb, Robert G. *See* Ballard, Harvey E., Jr.
Wagner, Warren L. and Harold Robinson. *Lipochaeta* and *Melanthera* (Asteraceae: Heliantheae subtribe Ecliptinae): establishing their natural limits and a synopsis. 539
Watanabe, Kuniaki. *See* Soejima, Akiko
Wen, Jun and David G. Frodin. *Metapanax*, a new genus of Araliaceae from China and Vietnam. 116
———. *See* Yoo, Ki-oug
Yahara, Tetsukazu. *See* Soejima, Akiko
Yoo, Ki-oug, Kuber J. Malla, and Jun Wen. Chloroplast DNA variation of *Panax* (Araliaceae) in Nepal and its taxonomic implications. 447
